

What happens next?

In August, the Advisory Committee will reconvene to consider the input received from today's public meeting and any comments received by July 25, 2003. The No Build, Alternatives 1A and 3B, and possible variations will be considered. The committee will then determine a recommended long range, strategic plan for Northwest Butler County.

The recommended plan will be presented to OKI for incorporation into the Regional Long Range Plan.
