**FOR IMMEDIATE RELEASE** – *Wednesday, May 22, 2019*

## **Ross Road open to traffic; work continues on Mack**

**Fairfield, OH** – Motorists are advised that Ross Road is now open to through traffic between Mack Road and Route 4.

The closure had been for a project replacing over 3,000 feet of water main. Work will continue on this project, primarily on Mack Road, through early July. It is being performed by JNT Excavating, LLC, under contract with the City.

The water main work will be completed in advance of the City's planned repaving of Ross and Mack Roads, which will occur later this summer.

While both Mack and Ross will be open through the remainder of the waterline project, motorists are advised to use caution within work zones and to be prepared for short delays and lane shifts.

Ross Road will be closed again for two to three days at the completion of the waterline project to allow for shoulder widening and final paving by Barrett Paving under the City's annual paving program.
