

# Traffic Engineering Workshop 2023

## BIL Grant Opportunities

**June 7, 2023**

# Bipartisan Infrastructure Law (BIL)

## Summary

Signed into law on November 15, 2021

The legislation reauthorizes surface transportation programs for FY 2022-2026 and provides advance appropriations for certain programs.

Invests \$350 billion in highway programs over 5 years

### INFRASTRUCTURE LAW

\$110 billion for  
roads and bridges

\$17 billion for ports  
and waterways

\$66 billion for  
passenger &  
freight rail

\$7.5 for electric  
vehicle charging

\$39 billion for  
public transit &  
\$7.5 billion for  
electric buses

\$11 billion for **safety**

\$25 billion for  
airports

Source: USDOT

# Ready...Set...GO!

## Preparing for a Federal Grant Application

### SAM.gov Registration

- Applicant needs Unique Entity ID (UEI) through SAM.gov (NOT DUNS #)
- Process can take up to 1 month

### Grants.gov Registration

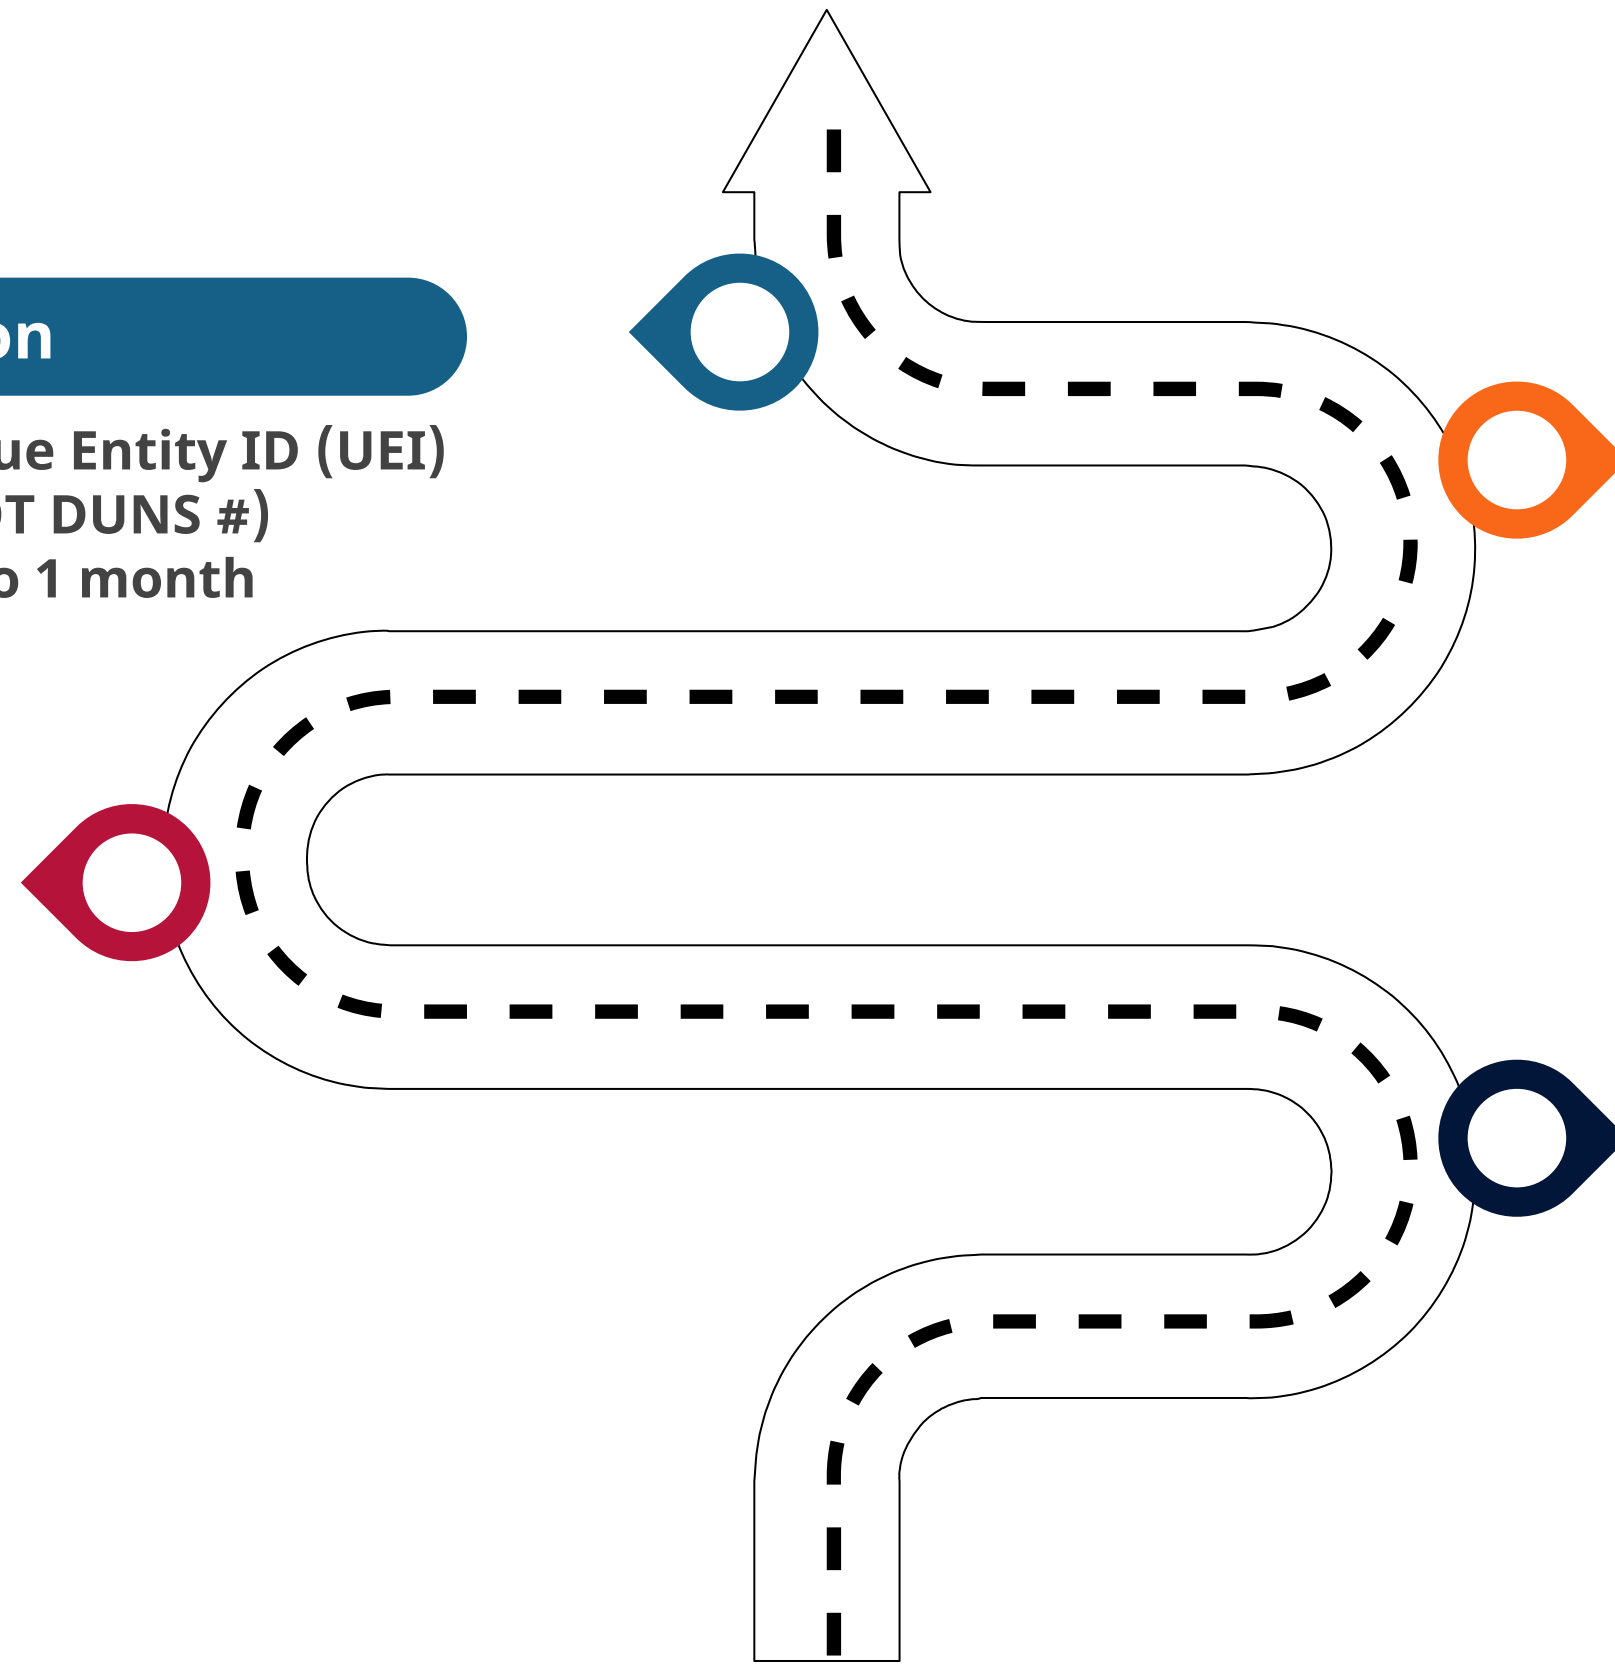

- Some BIL applications are submitted through Grants.gov
- Registration process can take up to 1 month

### Letters of Support

- Gather LOS from applicable entities (ODOT, MPO, transit org, community groups, etc.)
- ODOT LOS must be requested more than 2 weeks prior to application deadline via online form

### Cost-Benefit Analysis

- Required with some BIL grant applications
- Can be time consuming
- Many resources available

# ODOT Letter of Support Request

## Via FormStack

ODOT LOS must be requested **no less than 14 days prior** to application submission

Must submit **draft application narrative** and **template letter of support** with request

Formstack link:  
[https://odot.formstack.com/forms/los\\_request](https://odot.formstack.com/forms/los_request)

Please use the below form to request a support letter from ODOT for a USDOT Discretionary Grant application. A draft copy of the application and template letter of support are required. Requests should be submitted no later than 14 days prior to application submission. If you have any questions please contact [statewide\\_planning@dot.ohio.gov](mailto:statewide_planning@dot.ohio.gov).

Name\*

Phone Number if There are Questions\*

Email Where Support Letter Should be Sent\*

In what ODOT District is the project located?

A map of ODOT districts can be found here for reference: <https://www.transportation.ohio.gov/about-us/districts>

Organization Requesting Support

Project Name

What grant program is this request for?

When is the letter needed?

Are any ODOT funds committed to this project?\*

- ☐ Yes  
☐ No

Please attach a draft of the application narrative\*

No File Chosen

Please attach a template letter of support\*

# SS4A Grant

## Safe Streets and Roads for All

# SS4A Grant

## Safe Streets and Roads for All

### GRANT OVERVIEW

80% Federal | 20% local match

Grant Type	Expected Grant Range
Planning and Demonstration Grant	\$100K – \$10M
Implementation Grant	\$2.5M – \$25M

#### Eligible Applicants:

- Political subdivision of a state (*cities, towns, counties, special districts, similar units of local government*)
- Metropolitan Planning Organization (MPO)
- Multijurisdictional group comprised of the entities above
- Federally recognized Tribal government

# SS4A Grant

## Safe Streets and Roads for All

### Planning + Demonstration Grant

**Develop your Action Plan**

*Optional: supplemental planning  
and/or demonstration activities*

**Update your Action Plan,  
conduct supplemental planning,  
and/or execute demonstration  
activities**

### Implementation Grant

**Implement projects and strategies  
identified in your **Action Plan****

*Optional: Action Plan updates,  
supplemental planning and/or  
demonstration activities*

**Implementation grant**  
applicants **MUST** have an  
existing **Action Plan** that  
fulfills the criteria set by  
USDOT.

# SS4A Grant

## Example Implementation Grant Projects

**Safe Routes to School Projects**

**Transit Safety Projects**

**Bicycle Infrastructure Projects**

**Emergency Medical Response Time Projects**

**Highway Safety Projects**

**Pedestrian Safety Projects**

# SS4A Timeline

Notice of Funding Opportunity (NOFO) out NOW

**NOFO Released**

**March 2023**

**Application  
Deadline**

**July 10, 2023**

**Funding  
Award  
Announcements**

**Planning & Demo Grants:  
October 2023**

**Implementation Grants:  
December 2023**

**Funding Received**

**Within 12 months of  
award announcement**

# SMART Grant

## Strengthening Mobility and Revolutionizing Transportation

# SMART Grant

## Strengthening Mobility and Revolutionizing Transportation Grant Program

### GRANT OVERVIEW

New grant program to fund demonstration projects focused on **advanced smart city of community technologies and systems.**

**\$100M** appropriated annually for **FY 2022-2026**

**Eligible applicants:** States, **political subdivisions of states**, Tribal governments, public transit agencies, public toll authorities, MPOs, and a group of two or more eligible entities (applying through a single lead applicant)

# SMART Grant

## Strengthening Mobility and Revolutionizing Transportation Grant Program

USDOT anticipates that SMART grants will be released in two stages

### STAGE ONE: Planning and Prototyping Grant

- Proof-of-concept
- Build & strengthen partnerships
- Move quickly and demonstrate capacity

100% funding offered in 2022

Up to \$2M over 18 months

### STAGE TWO: Implementation Grant

- Scale prototypes to demonstrate benefits to community
- Capture lessons learned
- Evaluate benefits
- Work towards key performance indicators

Up to \$15M over 36 months

### BEYOND:

- Plan for widespread deployment of successful demonstrations

# SMART Grant

## Technology Areas

Applicants should focus on **one or two** technology areas.

CONNECTED  
VEHICLES

DELIVERY/  
LOGISTICS

SENSORS

SYSTEMS  
INTEGRATION

COORDINATED  
AUTOMATION

INNOVATIVE  
AVIATION

SMART  
GRID

TRAFFIC  
SIGNALS

# SMART Grant

## Technology Areas

### Connected Vehicles

Vehicles that send and receive information regarding vehicle movements in the network and use vehicle-to-vehicle and vehicle-to-everything communications to provide advanced and reliable connectivity.

### Coordinated Automation

Use of automated transportation and AV while working to minimize the impact on the accessibility of any other user group or mode of travel.

### Delivery/Logistics

Innovative data and technological solutions supporting efficient goods movement, such as CV probe data, road weather data, or global positioning data to improve on-time pickup and delivery, improved travel time reliability, reduced fuel consumption and emissions, and reduced labor and vehicle maintenance costs.

### Innovative Aviation

Leveraging the use of innovative aviation technologies (i.e., UAS) to support transportation safety and efficiencies, including traffic monitoring and infrastructure inspection.

### Sensors

Deployment and use of a collective intelligent infrastructure that allows sensors to collect and report real-time data to inform everyday transportation-related operations and performance.

### Smart Grid

Developing a programmable and efficient energy transmission and distribution system to support the adoption or expansion of energy capture, electric vehicle deployment, or freight or commercial fleet fuel efficiency.

### Systems Integration

Integration of ITS with other existing systems and other advanced transportation technologies

### Smart Technology Traffic Signals

Improving the active management and functioning of traffic signals

## Technology Areas – Smart Technology Traffic Signals

### Smart Technology Traffic Signals

Improving the active management and functioning of traffic signals, including through:

Use of automated traffic signal performance measures

Implementing strategies, activities, and projects that support active management of traffic signal operations, including through optimization of corridor timing; improved vehicle, pedestrian, and bicycle detection at traffic signals; or the use of connected vehicle technologies

Replacement of outdated traffic signals

For an eligible entity serving a population of less than 500,000, paying the costs of temporary staffing hours dedicated to updating traffic signal technology.

# SMART Grant

## Eligible Activities

### Development Phase Activities

Planning

Feasibility analyses

Revenue forecasting

Environmental review

Permitting

Preliminary engineering & design

Systems deployment or IT work

Technology work

Acquisition of real property

### Construction Phase Activities

Construction

Reconstruction

Rehabilitation

Replacement

Environmental mitigation

Construction contingencies

Acquisition of equipment

# SMART Grant Timeline

## Strengthening Mobility and Revolutionizing Transportation Grant Program

# RAISE Grant

Rebuilding American Infrastructure with  
Sustainability and Equity

# RAISE Grant

## Grant Overview

**RAISE Grants**

Rebuilding American Infrastructure with Sustainability and Equity

### Match Requirements

**Urban Areas: 80% - unless the project is located in an Area of Persistent Poverty (APP) or Historically Disadvantaged Community (HDC)**

- Match must be from non-federal source

**Rural Areas: 100%**

- There is no maximum federal share for projects located in rural areas, APP, HDC

### Minimum Award Size

- Capital Projects - \$1M Rural / \$5M Urban
- Planning Projects – No minimum award size

### Maximum Award Size

- \$25M BIL
- \$45M FY2023 Appropriation Act

### RAISE Urban vs. Rural Definitions

**URBAN** = Urbanized area with population greater than 200,000

**RURAL** = Urbanized area with population less than 200,000 | Outside an urbanized area

Urbanized Area Map Tool available: <https://maps.dot.gov/BTS/GrantProjectLocationVerification/>

# RAISE Grant

## Eligible Applicants

- ✓ **States**
- ✓ **Territories or Possession of US**
- ✓ **Unit of Local Government**
- ✓ **Public agency or publicly chartered authority**
- ✓ **Federally recognized Tribe**
- ✓ **Special purpose district or public authority w/ transportation function (i.e. port authority)**
- ✓ **Transit agency**
- ✓ **A multi-state or multijurisdictional group of eligible entities**

# RAISE Grant

## Eligible Projects

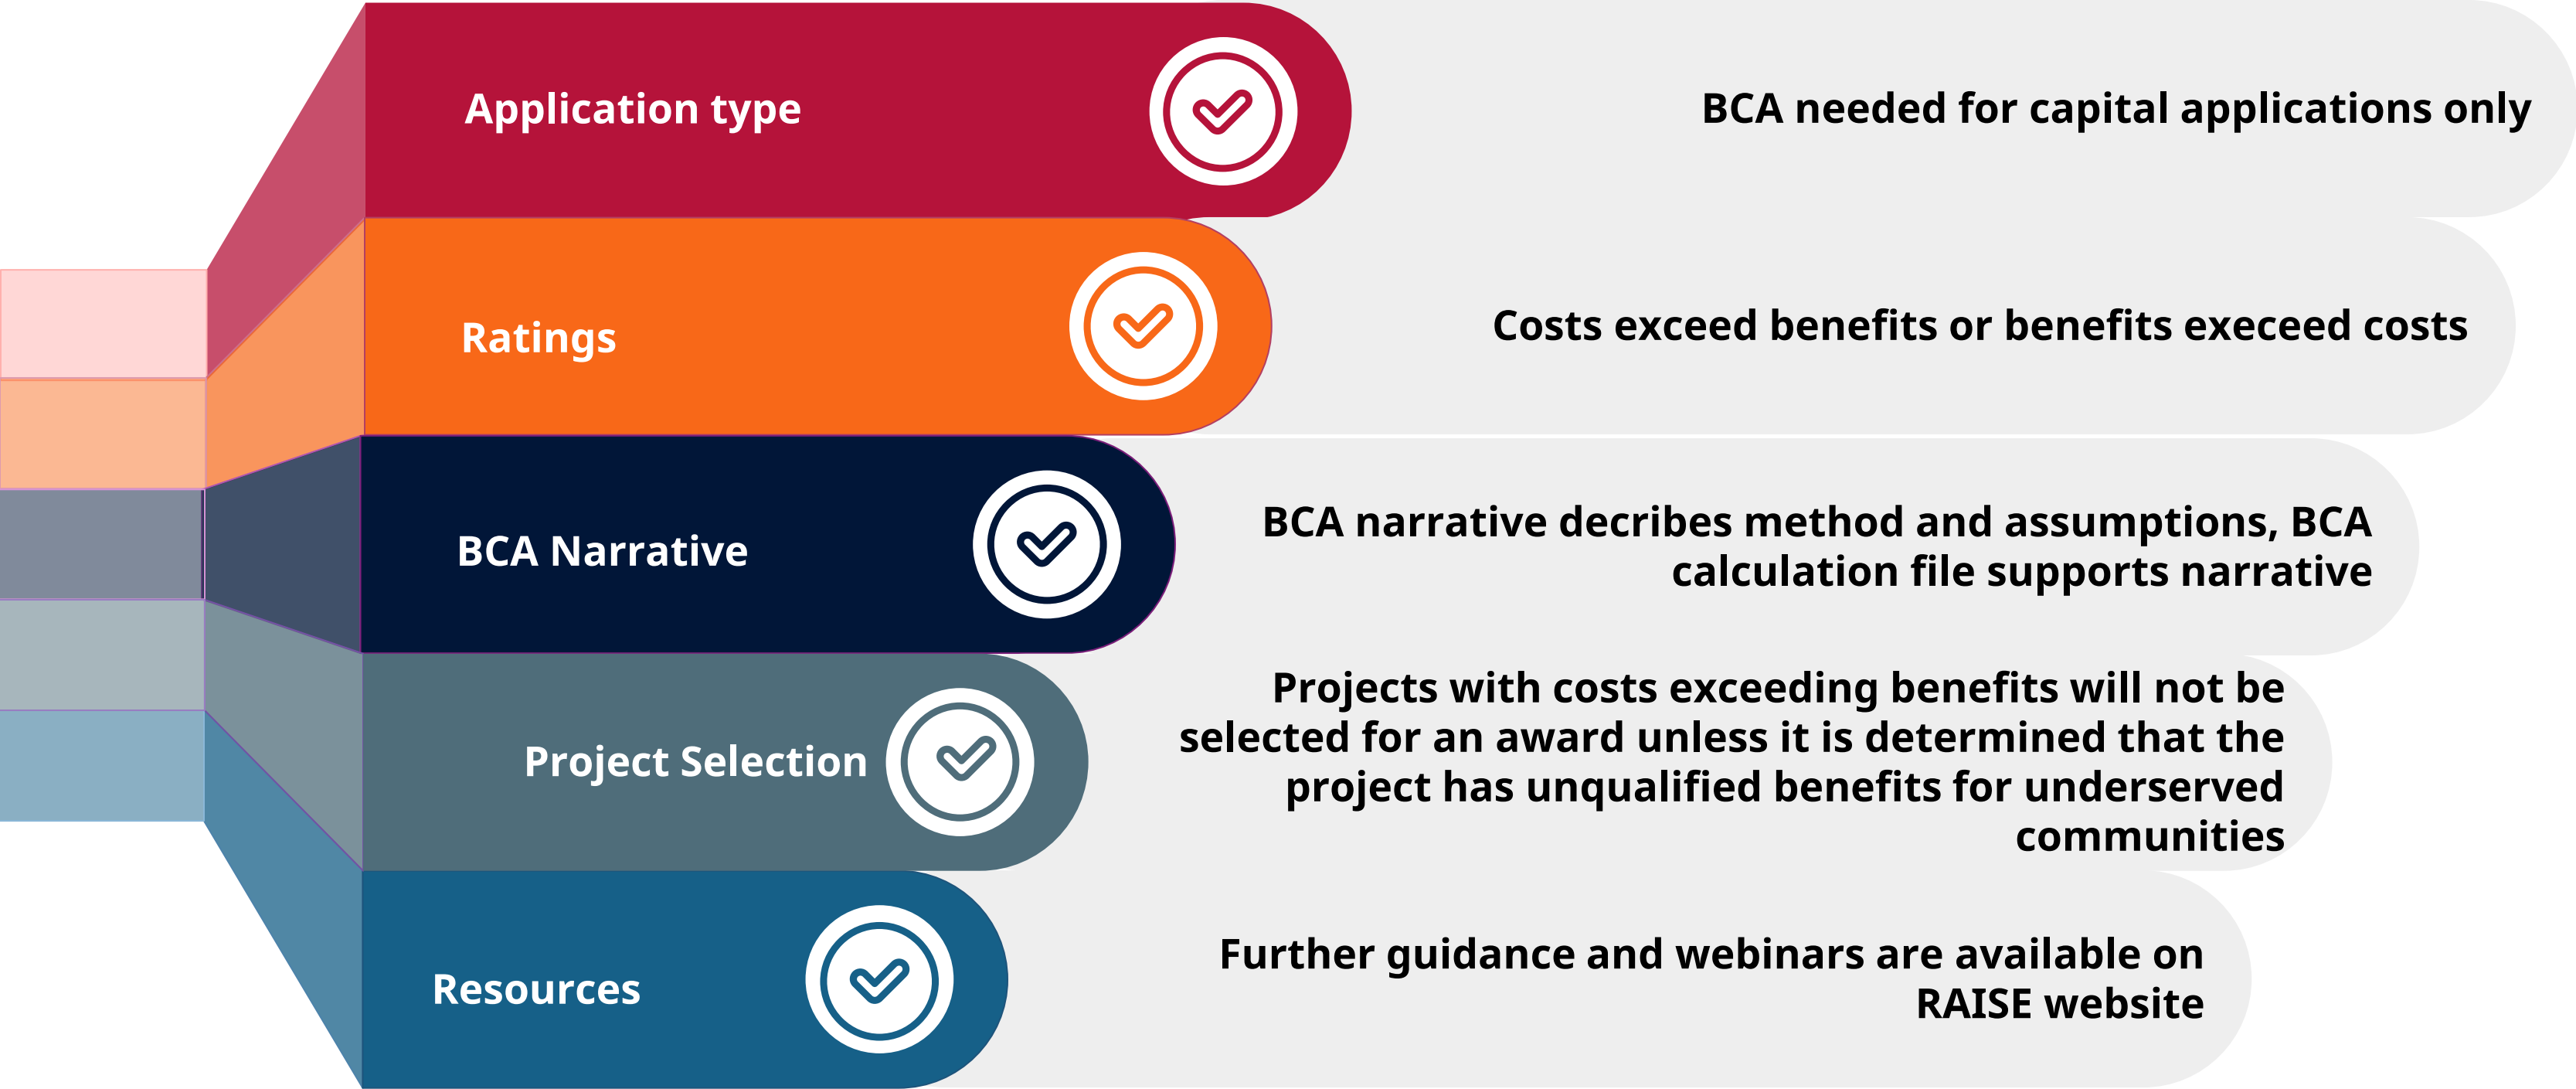

-  Highway, Bridge, or Road
-  Public Transportation
-  Passenger and Freight Rail
-  Intermodal Projects
-  Transportation Projects on Tribal Lands

-  Surface Transportation Components of an Airport  
Eligible under part B of subtitle VII of title 49 USC
-  Port Infrastructure  
Including Inland Ports and Land Points of Entry
-  Culvert Replacement and Rehabilitation  
to Prevent Stormwater Runoff to Improve the Habitat for Aquatic Species
-  Planning and Pre-Construction Activities

# Reconnecting Communities Grant

# Reconnecting Communities Grant

## Reconnecting Communities = Thriving Communities

### GRANT OVERVIEW

Program Goal: to advance community-supported projects (w/ priority on economically disadvantaged communities) to improve access to daily destinations (i.e. jobs, schools, healthcare, grocery stores, etc.) and foster equitable development and restoration.

Eligible facilities are defined as “transportation facilities that create barriers to community connectivity” due to high speeds, grade separations, or other design factors.

Grant Type	Award Amounts	Match Requirement
Planning Grant	No more than <u>\$2M</u>	20%
Capital Construction Grant	No less than <u>\$5M</u>	50%

# Reconnecting Communities Grant

## Eligible Applicants

Planning Grants	Capital Construction Grants	
<ul style="list-style-type: none"><li>• States</li><li>• Units of local government</li><li>• Federally recognized Tribal governments</li><li>• MPOs</li><li>• Nonprofit organizations</li></ul>	<ul style="list-style-type: none"><li>• Owner of the eligible transportation facility</li><li>• Eligible applicants to Planning Grants may submit the application <u>as long as the owner of transportation facility is a joint applicant</u></li></ul>	<div>Transportation Facilities:<ul style="list-style-type: none"><li>• Highways, arterials, parkways, collectors, local roads</li><li>• Transit lines or rail lines</li><li>• Viaducts or bridges</li><li>• Ports, gas pipelines, airports</li></ul></div>

# Reconnecting Communities Grant

## Project Examples

Planning grants and Capital Construction Grants will address **removing, retrofitting, mitigating, or replacing** an existing, eligible facility to reconnect communities

High-quality public transportation

Infrastructure removal

Pedestrian walkways and overpasses

Capping and lids

Linear parks and trails

Main street revitalization

Roadway redesigns and complete streets conversions

And more!

# Reconnecting Communities Grant

## Eligible Activities: Planning Grants

### PUBLIC ENGAGEMENT STRATEGIES

Including community visioning or other place-based strategies

### PLANNING STUDIES TO ASSESS FEASIBILITY

Current traffic patterns • Capacity of transportation networks to maintain mobility needs • Alternative roadway designs or uses for ROW • Impact on mobility of freight and people • Impact on safety • Anticipated economic impact • ....etc.
